This will be discussed at the steering committee meeting. It is the call of the committee but I would not think it necessary as it will be video taped. The fewer people on site for the removal the better is my view.

Subject: FW: AN removal draft protocol

All,

Attached is the drat protocol for AN removal at the site.

I understand state and federal agencies want the removal to occur as soon as possible and before the inspection of June 3-4.

This protocol was put together in consultation with the AN manufacturer. A representative of the AN manufacturer was brought on site on Wednesday of last week to observe the rail car and its contents.

I would like to get approval for TCEQ on this plan or advise of changes.

I understand that the railroad, UP, is interested in removing the railcar once the AN is removed. They are on this e-mail and we ask they coordinate with Crane Engineering for this removal. It will require a protocol that is acceptable to the people on this e-mail.

When we have an approved plan to remove the AN and railcar we will pick a date to implement the plan. We plan to video that removal and share with all "interested parties".

We do not intend to have all "interested parties" attend the removal of the AN or the railcar.

John
